EDUCATION

B.E. Electronics & Communication
University College of Engineering
Trichy 2023 – 2027 | CGPA: 7.50

Higher Secondary (12th) KAPV Hr Sec
School, Trichy Percentage: 86%

SSLC (10th) KAPV Hr Sec School,
Trichy

SOFT SKILLS

- Team Player
- Adaptability
- Self-Discipline
- Active Listener
- Multitasking & Punctual
- Responsible & Resilient
- Public Speaker
- Confident in training and technical presentations

TECHNICAL SKILLS

• Languages: C, Embedded C, Python, MATLAB, Verilog HDL

• Web Dev: HTML, CSS, JavaScript, React, Django

• Tools & SW: VS Code, GitHub, Vercel, Proteus VSM, Xilinx Vivado, Keil, Canva, CANoe

• Core Domain: Circuit Design & Simulation

LANGUAGES

- Tamil (Native)
- English (Proficient)

PROFESSIONAL SUMMARY

Motivated Electronics and Communication Engineering student with a strong focus on VLSI design, full-stack web development, and front-end solutions. Experienced in hands-on circuit simulation and building real-time web applications. Seeking opportunities to apply technical skills through internships or entry level roles while continuously learning and contributing to innovative engineering solutions.

INTERNSHIP

On-The-Job Training – FULL STACK DEVELOPMENT

VDart Academy | June 26 – July 26

- Developed a full-stack AI-powered content generation platform using **React, Django REST Framework, and SQLite**, enabling users to generate, edit, and manage AI-generated text and images through an intuitive dashboard.
- Implemented **location-based trending topic suggestions** to help users discover relevant content ideas and create engaging, trend-driven social media post

Internship in Design and Analysis of Digital VLSI

National Institute of Technology, Tiruchirappalli | Dec 25-Jan 26

- Designed and simulated digital circuits using Verilog HDL and Xilinx Vivado.
- Implemented and analysed the performance of Digital Alarm clock as project

Internship in Analog and Digital Circuit Design and Simulation

National Institute of Technology, Tiruchirappalli | Jan 25 – Feb 25 2025

- Designed and simulated analog and digital circuits using Proteus VSM.
- Analysed circuit performance and validated simulation results.

PROJECTS

- Content-IQ - FULL STACK DEVELOPMENT
- Startup Website & Modern Portfolios
- Digital Alarm Clock – VLSI INTERNSHIP
- Smart Door Lock System – EMBEDDED SYSTEMS
- Tech Dining System - Naan Mudhalvan

CERTIFICATIONS

- Earned Elite Certification from NPTEL for completing the "Introduction to Machine Learning" course with a score of 68%.
- Completed a comprehensive Web Development Course under the PMKVY Scheme.
- Attended and completed the SNAP ON CHIP workshop in PROBE25 at NIT Trichy.
- Finished professional development courses in Design Thinking and ADAS Simulation I & II via Naan Mudhalvan.
